For the past 15 years this lodge has been considered THE place to hunt in Cordoba, Argentina. Located only 1:20 from Cordoba airport, the lodge has access to the largest dove populations in the Cordoba; whether it be in the hill areas around the lodge or in the eastern farmland areas. The 9-bedroom lodge was built knowing that many demanding clients would be attracted to the world-class shooting. The accommodations are luxurious yet still they maintain the feel of a hunting lodge. The rooms are very spacious, and each has its own private bathroom. A beautiful pool and a heated Jacuzzi were built since clients spend more time around the lodge and less on van rides. Lunches are served at the lodge in a beautiful setting that also allows you to take a nap in the comfort of your room. Finally, a great fire pit was placed behind the lodge where clients recount the day's events.

THE EXPERIENCE

THE SHOOTING

For more than 35 years, seasoned international wing shooters have recognized Cordoba, Argentina as the world's leading destination for dove hunting. There are an estimated 50 million doves in Cordoba province, this ensures high quality hunts for thousands of visitors over the years.

This lodge is the only one in Cordoba with a game management program that was put in place in 2000. This game management program consists of planting sunflower and wheat. We do our own farming with a hunting criteria to ensure great quality shoots. In 2014, we took the game management system to the next level by installing an irrigation system to ensure a constant food source for the birds. This formula provides some of the most magical shooting over sunflower or wheat fields. We also have access to great hunting in the vast farmlands of the east where one can shoot in recently harvested corn and soy bean fields; enjoying delicious outdoor field lunches.

All this assures our hunters, non-stop shooting. During the Sunflower Season, January 1st to April 15th hunters enjoy a field experience entirely unique to this lodge. With the property's expansive sunflower fields in full bloom, the shooting is done amongst a striking sea of yellow.
